WORK EXPERIENCE

Software Development Engineer, Amazon

05/2022 – present

- Moved the stack's reliance to the consistent approach for determining the target language during page rendering.
- Shifted the blocking logic for problematic actors on Seller Central from a Hardcoded threshold amount to a pre-evaluated risk.
 - Designed and Implemented the integration between Identity Verification Workflow and ML Model outputs.
 - Refactored Data collecting procedure to improve user experience.
 - Did end-to-end testing across numerous geographic regions.

Power Programmer, Infosys

01/2021 – 05/2022

- Performed data transformations on data after retrieving it from various sources.
- Created scripts for capturing pipeline inputs and changed pipelines to increase data loading efficiency by 13%.

SKILLS

Programming languages

C++, SQL, Python, Java

Fundamentals

Data Structures and Algorithms, Database Management System

Libraries/Frameworks

Spring, Mockito, Junit, Numpy, Matplotlib, Big data framework - Hadoop, Pig, Hive, Spark

Development Skills

Backend Development using Java, Created Data Pipelines using Informatica Powercenter

EDUCATION

BE CSE, UIET, Panjab University

2016 – 2020

CGPA - 8.42

Chandigarh

12th, Krishna Vatika Sen. Sec. school

05/2016

92%

Bathinda

PROJECTS

Drug text classification of social media

Classified health texts on twitter in which adverse drug reaction incidents were reported in market.

AQI prediction, Web scrapping, Pandas, ML classification algorithms

Analysed change in AQI value with physical and geographical parameters of location using ML.

Employee Competency Analysis, Hadoop, Hive , Spark

Generated insights and give solutions to business queries on training data of employees.

ACHIEVEMENTS

- Secured 652 rank in GATE 2020.
- Among top 50 performers of the Infosys Foundation Program of the quarter.
