ABOUT ME

Product thinker drawn to enterprise platforms where complexity hides opportunity. I believe the best products earn daily use through intelligence, not obligation — and that the person building them should understand both the user's frustration and the system underneath. I want to own the decisions that shape what gets built and why.

WORK EXPERIENCE

Software Engineer, Servicenow

02/2023 – Present

Hyderabad

- Built foundational CWM features with deep product intent — ensuring cross-system coherence across navigation, discovery, and execution layers.
- Built Agile and Column Config UI components from scratch and contributed to Grid, Gantt, and Docs.
- Led cross-team release coordination and ensured backward compatibility for shared UI components.
- Resolved critical security defects in role-based approvals for timecard workflows — understood how to balance enterprise compliance, user workflows, and system integrity.
- Resolved approximately 200 defects through thorough root-cause analysis; transformed recurring issues into standardised operating procedures (SOPs), significantly reducing repeat defects.
- Coordinated over 50 customer escalations across engineering, support, and product teams, aligning solutions with user expectations beyond just specifications.

Software Development Engineer, Amazon

05/2022 – 02/2023

Gurgaon

- Worked on Seller Central — Designed the bridge between identity verification and ML risk scoring, automating fraud detection decisions that were previously manual and time-consuming.
- Simplified page rendering logic to improve load time and user experience.

Power Programmar, Infosys

01/2021 – 05/2022

- Optimized data loading by 13% through scripting pipeline inputs and performing data transformations from multiple sources.

SKILLS

Product & Strategy

Product Vision & Roadmapping, OKR Definition, User Journey Design, Prioritization Frameworks, Data-Driven Decision Making

Agile Project Management

Sprint Planning, Backlog Prioritization, Scope Documentation, Acceptance Criteria Definition, Defect Root-Cause Analysis, Release Coordination

Communication & Influence

Cross-Functional Leadership, Data Storytelling, Dashboard Design, Process Mapping

Technical Foundation

Full-Stack Development (Now Platform), Frontend Architecture (React, JavaScript), API & Component Design, Event-Driven Systems, SQL, AI-Assisted Development (Claude API)

EDUCATION

BE CSE, UIET, Panjab University

2016 – 2020

CGPA - 8.42

Chandigarh
